

Branford Hills

Branford Hills Health Care Center is a 190-bed skilled nursing facility licensed by the state of Connecticut and has been continuously owned and operated since 1980. They have cared for thousands of patients from throughout Connecticut, providing comprehensive short-term rehabilitation and long-term care services.

Allied Communications Improves Productivity while Slashing Costs

Avaya IP Office Installed

With SIP Trunking and the ability to expand & add all residents phones to improve internal communication.

50% Savings

On Their Bills
with
New Equipment

HIPPA Compliance

We worked with the compliance officer throughout each phase of the infrastructure and network upgrade to ensure compliance.

About this Project

We began this relationship by managing their network and through a consultative approach, we were able to conduct an audit on their bills to see where they can save or cut costs completely.

Avaya IP office was installed to connect their 2 buildings with the ability to expand and add resident room phones. SIP Trunking added a flexible DR solution. We upgraded wiring and added fiber to connectivity from all IDF's to increase performance and improve their experience. The WiFi infrastructure was upgraded to improve connectivity throughout the building enabling the nurses to utilize WiFi phones, increasing mobility.

SIP Trunks and an extensive audit helped successfully **lighten their costs by nearly 50%**, even with the new equipment and upgraded IT infrastructure.

Solutions Provided

- 1 Avaya IP Office with Ongoing Allied Support
- 2 Upgraded Wiring & Fiber
- 3 SIP Trunks
- 4 Nearly 50% Savings on Bills.

"We have a long relationship with Allied Communications handling all of our Voice & Data systems and services. They are responsive to our needs, have improved our systems, and saved us money"

Steve Shelton - Executive Director, Branford Hills Health Care Center

"We Make Communication & Collaboration Easy"
